### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### *Claim Rejections - 35 USC § 102*

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 51, 60, 63, 64, 66 and 69 rejected under 35 U.S.C. 102(b) as being anticipated by U.S. Patent No. 4,402,308 to Scott.

Scott discloses a marker instrument comprising a tube comprising a lumen; an axial opening at a proximal end of said tube; a closed tip at a distal end of said tube (FIGS. 8-11); a side exit port (32) proximal to said closed tip; and a plurality of marker elements includes at least one radiopaque marker element (31).

### *Claim Rejections - 35 USC § 103*

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 52, 53, 65, 70 and 71 are rejected under 35 U.S.C. 103(a) as being unpatentable over Scott '308 in view of U.S. Patent No. 4,994,013 to Suthanthiran et al.

Art Unit: 3731

Scott discloses the claimed invention except for the material of the marker element.

Suthanthiran teaches that marker elements may be made out of many different materials including both metallic and non-metallic materials (Column 5 lines 10-26). It would have been obvious to one having ordinary skill in the art at the time the invention was made to provide the device of Scott with a marker made out of metallic or non-metallic materials since it is known in the art to make markers out of different materials.

### *Allowable Subject Matter*

5. Claims 72 and 73 are allowed.
6. Claims 54, 55, 67 and 68 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
